

The King's Crown

VERY EASY • 6×6 • 5 DETECTIVES

- 1 **Bruno** was in a corner of the Main Gallery: only one square fits. **Row 3, column 6**, in the Main Gallery.
- 2 **Diana** was next to the box. Cross out Bruno's row and column. **Row 1, column 5**, in the Storage Room.
- 3 **Edward** was sitting on a bench. Cross out the rows and columns of Diana and Bruno. **Row 4, column 1**, in the Auditorium.
- 4 **Vaughn** can only be in the last free square. Cross out the rows and columns of Diana, Edward, and Bruno. There was only one detective in the thief's area. **Row 2, column 4**, in the Storage Room.
- 5 **Alice's** card is about the others, not about her own square. Cross out the rows and columns already taken. She was with Carmen, and Carmen can only be in row 6, column 3. **Row 5, column 2**, in the Gift Shop.
- 6 **Carmen** was in the third column. Cross out the rows and columns of Edward and Bruno. **Row 6, column 3**, in the Gift Shop.

SOLUTION
